CAMP J-term 2026 survey

Thank you for your hard work and participation during CAMP J-term 2026! I had so much fun learning about soil, cells, translations, onramps, health outcomes, music, sounds, medicine, chemistry, machine learning, video games and more!

Hearing details about what worked and didn't directly from you will help me improve this experience for future students! I appreciate your feedback and will be following up with you until you fill this out so please do so ASAP before you forget! (preferred due date Tuesday, January 20).

If you have any anonymous feedback please feel free to put that in this form that is not collecting names or email addresses.

1. What is your name? (first name is sufficient)

2. What was your favorite part of CAMP?

3. Did CAMP improve your understanding of MATLAB? If so, describe a topic (or a few!) that you felt you learned well, and if not do you have any suggestions for improvement?

4. What skills that you learned/practiced during CAMP do you think will be useful in your future research?

5. Did the experience of practicing presentations improve your anxiety or comfort level with speaking in front of your peers?

Mark only one oval.

- Yes
- No
- Other:

6. Please expand on your answer above.

7. Would you recommend CAMP to a friend? Why or why not?

8. Do you have any suggestions or feedback to improve CAMP for future students?

9. Please use this space for any additional feedback you would like to provide.
